The Challenges of Managing Rentals

DISORGANIZED TRACKING

Many landlords struggle with tracking rent payments through **manual methods** like exercise books and Excel. This leads to confusion, lost records, and a lack of transparency in financial status.

POOR TENANT COMMUNICATION

Constantly chasing tenants over the phone can be exhausting. Landlords often find themselves unsure of who has paid, leading to frustration and potential loss of income. Clear communication is crucial for success.

All-in-One Solution

PROPERTIES DASHBOARD

The **properties and units dashboard** provides a live overview of occupancy, ensuring you are always aware of which units are rented and which are available.

FINANCIAL MANAGEMENT

Streamline your finances with automated **rent tracking** and invoicing. Generate instant numbered receipts and reports for collections, occupancy, and profit to keep your business on track.

TENANT PORTAL

Empower your tenants with a **self-service portal** where they can view their bills and payment history, ensuring transparency and enhancing communication between landlords and tenants.

Tailored Solutions for Tanzanian Landlords

LOCAL LANGUAGE SUPPORT

PMS offers **full Swahili and English** support, allowing landlords to switch languages seamlessly, catering directly to the needs of Tanzanian users and enhancing user experience.

MOBILE PAYMENT INTEGRATION

Accept payments through **M-Pesa, Tigo Pesa, and Airtel Money**, making transactions convenient and accessible for tenants and landlords, in a system that reflects local financial practices.

COMPREHENSIVE LOCAL SUPPORT

Benefit from dedicated **local support** from BJP Technologies, ensuring any issues can be resolved quickly and efficiently, providing peace of mind for landlords and tenants alike.
